

Special Showing of Afternoon, Evening and Reception Gowns, Mon- day April 10th

You and your friends are cordially invited to come and view our exhibit of lovely new frocks for afternoon and party wear. In all truthfulness we can say that never before in our history have we exhibited such an array of afternoon and reception gowns as we will show Monday.

In all the new colors and in white. Silks, Satins, Organzies, Nets, etc., with lovely combinations of rose and white, blue and white, gold and white, and fancies.

Be sure and come.

MRS. B. GRAVES BOYD
West Side Square

We have sold all but one of the first
shipment of

Georgia Cracker Cotton Planters

and are expecting our second shipment to arrive in a day or two.

This is the best planter sold in the county. Come in and see for yourself.

Mr. O. P. Werner of Pendleton was a business visitor yesterday.

Mr. T. P. Dickson has returned from Greenville.

COUNTY POLITICS QUIET WITH BUT FEW OFFERING FOR STATE LEGISLATURE

(Special to The Intelligencer.)
Columbia, April 8.—Very few announcements for the general assembly have been made in the counties for the state. A majority of the last general assembly will ask for reelection, although many of the most efficient members will make no effort to return to Columbia. There is little interest so far in county politics. However there is still plenty of time and the usual crop of candidates will be out.

ALL SHOULD BE PROUD OF ANDERSON COUNTY

S. M. BYARS, DEMONSTRATION AGENT, VERY INTERESTINGLY TELLS OF HIS WORK

CO-OPERATION IS BEING SHOWN

By the Farmers Among Themselves and Also in Assisting Mr. Byars With His Work—Best Efforts.

"Just a year" came to Anderson county to take up my duties as county demonstration agent. Since coming here I have endeavored to get acquainted with Anderson county and Anderson county people. I wanted to know Anderson county from every standpoint, her bad points as well as her good," stated County Demonstration Agent S. M. Byars yesterday to a representative of The Intelligencer.

"Coming as I did, a stranger, it was necessary that I familiarize myself with local conditions. I have tried to do this in connection with my regular demonstration work. With the assistance of people in every kind of business I have been able to get pretty well acquainted with conditions in general, and to say that I am satisfied with Anderson county would not be expressing it strong enough. I am more than pleased.

"All of us ought to get better acquainted with our county; we would like it better. Yes, we would be proud of it. Each time I go over the county I find something new and something to make me like the county better. In fact I feel safe in saying that few if any of the counties in the south are better than this and every person in the county can justly feel proud of it.

"I have found Anderson county farmers as good as any anywhere in the country. They are progressive and are studying their profession and as a whole have shown a splendid spirit of co-operation. In the preparation of the soil and the cultivation of the crops I see little room for improvement and with the attention that is now being given to summer and winter legumes and other cover crops the soils will become richer and richer from year to year. In past years this feature of the work has been neglected.

"Soils being my hobby, I have tried to familiarize myself with the various soils types of the county. These I have found to belong to the Cecil series and similar in many respects to other soils in the Piedmont region. With the assistance of the soil survey of the United States department of agriculture and the division of chemistry of Clemson college every type of these soils has been examined chemically, physically and mechanically. All of these soils are classed as "strong" or fertile soils and are among the most productive in the country.

"There is no end to the variety of crops that can be produced in this section. Natural conditions are favorable for the profitable production of almost any crop common to the south.

"The spirit of co-operation has been fine among every line of business. I feel very grateful to all who have been so kind to me and for the interest they have shown in the work. This is a big county and it is very hard for one man to cover. No matter how intelligently or earnestly one works he can accomplish little without help and kindly assistance from others. I invite acquaintances, suggestions and cooperation from every one.

"I want to see Anderson county the best in the country and I am here to serve the people and I want to serve them in the best and most helpful way possible. Let us strive to make Anderson county the best in everything."

The work being done in this county by Mr. Byars is of the best, and the people of the county generally are glad that they have such a man as he in charge of the demonstration work. He is putting forth his best efforts to aid and assist the farmers of the county in every way he can, and he will receive the hearty co-operation of all the people. Mr. Byars goes about his work in a systematic agriculture in this county, and many are the farmers who have received valuable aid from him.

Brings Negro Back.
Newton, N. C., April 8.—Deputy Sheriff Charles Hester has returned from New Jersey with John Kale, the negro who is charged with having stolen four bales of cotton from the Long Island Cotton mill, and then sold it back to the mills. Of the \$400 he is said to have had when he left, \$25 was found on him, a \$32 watch and three suitcases full of "glad rags" are coming by express to Sheriff Isenhower.

The College Glee Club will give a concert in the college auditorium Monday evening April 10, at 8:30.

The program will be varied and interesting and those who have not heard the Glee Club will do well to avail themselves of this opportunity. The price of tickets is 25 cents.

GREAT SIGHT IS FIGHT BETWEEN A FISH AND DUCK

Atlanta, Ga., April 8.—Did you ever see a fight between a cat fish and a duck? It is a great sight. Any day you want to take a loaf of bread to the Chattahoochee river bridge, near Atlanta, and throw it overboard to the flock of ducks in the river you can see a battle royal.

When a farmer, living near the bridge, placed the ducks in the river he didn't realize that he would have all the cat fish in that vicinity to feed, but the cat fish have their communicating system in working order and when a piece of bread is thrown over the rail of the bridge to the ducks below it is a grand race between fish and fowl for the honor of gobbling the food.

There are nearly eighty ducks in the flock now that swim around the pier of the bridge and each day sees a few more added to the collection. Automobiles and other visitors who go to the river bridge have been very good about helping the farmer with the feed question and especially the little children, who seem to take a keen delight in bringing the remains of their school lunch for the ducks.

The question worrying the farmer now is how to get rid of the fish. They follow the ducks around and the minute a piece of bread is thrown in the water there is a splash and a flutter and hundreds of cat fish rise to the surface in an attempt to get the food.

Often, as they grab a little piece and are ready to dive below the surface, one of the ducks, a little bolder than the rest, will start a chase after the fish and does not hesitate to dive for the prize. The fish have a way of coming to the surface and sticking their upper fins in the duck, and when this happens the fowl usually gives a jump and a squawk and goes sailing in the air.

Evokes "Privilege" Tax.
Fort Mill, S. C., April 8.—For the reason that the Fort Mill Manufacturing company is a large income producer for the town and the largest property taxpayer, the town council has revoked that section of the so-called "privilege" tax ordinance applying to the cotton mills here, and ordered the refund of the taxes collected for the current year.

Low Fields of the famous comedy team of Weber and Fields, received \$3 a week for his first work on the stage.

"GASCARETS" BEST IF HEADACHY, BILIOUS, SICK, CONSTIPATED

Best for liver and bowels, bad breath, bad colds, sour stomach.

Get a 10-cent box.
Sick headache, biliousness, coated tongue, head and nose clogged up with a cold—always trace this to torpid liver; dented, fermenting food in the bowels or sour, gassy stomach. Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue "causes congestion and that dull, aching, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet and your liver and bowels regular for months.

ANDERSON CANDY LAND

Now ready for business.

Try our
Chocolates
Bon Bons

The Up To Date Clothier

PREVENTION

An ounce of prevention is worth a pound of cure. This is the day of PREVENTIVE MEDICINE. Nowhere is this so necessary as in regard to the care of the TEETH. Visit the dentist AT LEAST twice a year, whether you think you need it or not. Let him give your teeth a thorough cleaning, search out the beginnings of decay, clean off the tartar, and in general PREVENT those dental evils that are likely to grow on you unawares.
